### How the Thermal Press team will improve your business:

- 1) Thermal Press engineering and sales staff is your complete production partner.
- 2) We coordinate and optimize your part design and assembly processes.
- 3) Tap into over 30 years' experience in manufacturing assembly systems & solutions.
- 4) Utilizing the latest in CAD, CAM and FEA technologies.

### Services Available:

- ▶ Technical Support
- ▶ Installation & Training
- ▶ Preventative Maintenance
- ▶ Calibration Services
- ▶ Medical Validation/Qualifications

### Customers Say:

*"I highly recommend Thermal Press whether you have a project that needs the extra effort to iron out some early kinks, or a fully developed process that needs to be implemented in an organized and efficient way."*

*-Rich  
Medical Mfg, Bay Area, CA*

*"Thermal Press knew ahead of time that our company was from a regulated industry (medical device) and therefore knew our strict requirements. I would recommend Thermal Press to any facility requiring precision heat staking equipment."*

*-Patrick  
Medical Device Mfg, Santa Barbara, CA*

## C Series Thermal Press®

The C Series Thermal Press has an open "C-Frame" format engineered to accommodate all sizes of parts and assemblies.

Our Thermal Press machines incorporate the latest technologies of Integrated Digital Control and Monitoring Devices to consistently produce accurate finished assemblies to meet the highest standards of quality and performance testing.

Thermal Press is the industry leading standard in the engineering of robust precision machines and thermal assembly systems used for; heat staking, swaging, sealing, insertion, film/filter sealing/welding, heat seal connectors, hot bar soldering and many other precision assembly processes.

### Available Options:

- Quick-Change Custom Tooling Packages
- Servo-Actuators & Controls
- Part Clamping Systems
- Vision and Inspection Systems
- Part Detection and Verification
- Part Loading & Unloading
- Extended Stroke Machine
- Tables: Power, Rotary and Linear
- Data Acquisition & SCADA Packages
- Integrated Force/Output Measurement
- Advanced Roll Feed Systems
- Automation and Integration
